Elson S. Floyd
College of Medicine

WASHINGTON STATE UNIVERSITY

Interested in impacting health career choices for students in your school?

BECOME A SITE COORDINATOR

WSU Elson S. Floyd College of Medicine is proud to create learning opportunities for our rural and underserved communities. As part of this mission, we launched the Stevens County Mentorship Program in Fall 2019 in collaboration with several Washington community partners as well as WSU Health Sciences Spokane. The mentoring program opens health career opportunities to Stevens County students while simultaneously providing mentorship from health care leaders.

Site Coordinators play a critical role in this mentorship process. Thank you for your willingness to coordinate the learning opportunities for students in your school.

ROLES & RESPONSIBILITIES:

- **Scheduling** for virtual & in-person hands on learning
- **Arranging** locations for learning opportunities within your building(s)
- **Communication** with mentors on scheduling (scheduling changes)
- **Communication** with administration, teachers & students on release for learning opportunities
- **Coordinating** with other program districts for transitioning hands-on learning
- **Inventorying** iPads and materials following learning opportunities
- **Distributing** communication to families and students from WSU
- **Collecting** any feedback/communication from families to WSU (as needed)
- **Managing** day-of learning opportunities

WSU PROVIDES:

- Compensation
- Training
- Ongoing support
- Regular communication
