

Anatomy:

Continue to work on your coloring and, if possible continue to watch two Crash Course videos per week. When you color, be sure to consider the names and functions of the structures that you are working on. Include labeled sketches in your notes. **Be sure to indicate the date and title on your notes as you take them.** If you do not have the internet, take notes on what you are learning with the coloring book.

You may ask questions by email at vmoeller@marywalker-student.org.

You may also text me at 541 - 701 - 9779 if you have questions.
Take care and stay healthy.

Just for fun:

A reading log is available at <https://tinyurl.com/tkq4y4a> This can be for fun or for the Science News / Science Daily readings.
