**Strategic Planning  
Strategic Plan Evaluation**

No later than May 15th of each year the visioning team shall reconvene to assess the district's progress in implementing the strategic plan. At that time the visioning team shall develop a report to the Board reviewing the district's progress and shortcomings in implementing the strategic plan and recommending changes in direction or priority in the strategic plan that are necessary or beneficial.

No later than June 1st of each year the Board will meet with the visioning team and administration in public session to review the visioning team's report. The Board will review the progress of the plan, and consider amendments and changes in priorities in the plan and realignment of resources in terms of changed or changing circumstances.

Proposed amendments to components of the strategic plan shall be considered by the Board following a public hearing on the merits of the proposed amendments.
